WASHINGTON, April 1.—In the Senate, Sumner presented the petition of Jose Casunvo, a citizen of the United States, setting forth indignity received from the Spanish Government of Cuba, and asking the interposition of the United States Government.

Grimes reported from the Committee on Naval Affairs with amendments to the bill to establish the office of Solicitor and Naval Judge Advocate General.

Wilson introduced a bill to relinquish the title of the United States to certain lands in the city and county of San Francisco. Referred to the Military Committee.

Sumner offered a resolution postponing the election in Texas.

The morning hour having expired, the Indian appropriation bill came up and was considered till four o'clock.

After an executive session the Senate adjourned.

In the House, Schenck, from the Committee of Ways and Means, reported a resolution to examine and revise the tariff laws and regulations relating to custom houses and bonded warehouses, to sit during vacation and examine witnesses, etc. Adopted.

Sawyer, from the Committee on Commerce, reported the river and harbor appropriation bill.

Dawes introduced a bill to define vacancies in office and to provide for filling the same and to regulate resignations. Referred to the Judiciary Committee.

The House then resumed the consideration of the Mississippi bill. After debate, Butler moved the previous question, which was seconded. Butler in the closing speech criticised the course of his colleague, Dawes. He warned the Republican members that if Mississippi and Georgia were not reconstructed with loyal legislatures, the Fifteenth Amendment could not be passed and they would lose half a dozen States. Farnsworth moved to postpone the bill till the first Monday in December, which was agreed to—103 to 62.

Paine, from the Committee on elections, reported that Semple, from the Fourth District of South Carolina, is ineligible.

Cessna called up the contested election case of Covode vs. Foster. After debate, without disposing of the question, the House adjourned.

CHICAGO, April 1.—The *Post's* special says the House Committee on Foreign Affairs have agreed to report a joint resolution declaring the sympathy of the Americans with the Cubans in their struggle for independence, and pledging their support to the President whenever he deems it expedient to recognize their independence. But one member of the Committee dissented.

John N. Douglass, the new Deputy Commissioner of Internal Revenue, has assumed the duties of his office.

The warrants issued by the Treasury for March to support the Government were $20,580,000.

The Senate has confirmed John Allison as Register of the Treasury.

The remainder of the executive session was occupied in a discussion of the nomination of Longstreet as Surveyor of the port of New Orleans.

It is stated that there is no doubt of the adoption by both Houses of the Cuban sympathy resolutions. Friends of Cuba say they will exercise an important influence on the war, securing to the revolutionist physical as well as moral support. It is expected the Spanish Minister will present a remonstrance to the State Department against the recognition of Cuban independence and will leave the country in case of the adoption of the resolutions.

Gen. Stoneman. — Great Reduction of the Debt.

The Chamber of Commerce of Liverpool have petitioned the House of Commons, Gladstone and the Postmaster General, to support the present contracts with the steamship lines for carrying the mails to America.

THE RAMIE PLANT.—The attention of our agricultural population is earnestly directed to the new and most lucrative plant called the ramie, which is at this moment creating a great sensation in the Southern States; particularly in Louisiana. The ramie is a species of thistle, and like all of its tribe is extremely hardy and easy of cultivation. It may be grown on any soil capable of raising the common thistle or the artichoke, and requires but little care, for being of a remarkably quick and vigorous growth it is a foe to weeds. It is susceptible of being propagated from cuttings, like the vine, is perennial, and yields three or four crops a year, at the rate of three thousand pounds per acre, and will readily command $230 per ton on the spot. The threads produced from the plant are larger, silkier and stronger than cotton, and when mixed with cotton or wool produce a brilliant, beautiful fabric, superior to either of the others alone, and when manufactured by itself resembles the finest grades of poplin. It will be seen that the product of each acre will give a gross revenue of three hundred and eighty seven dollars. An acre of wheat producing thirty bushels, worth two dollars per cental, will return but thirty-six dollars per acre, while the expense attending wheat culture is much greater than that required for the ramie.—*Commercial Herald.*

Montana News.

[From the Montana News Letter, March 15.]

Snake river—which general designation may signify any part of the country from south-western Montana through Idaho and into Washington for one thousand miles—Snake river, the mother of a hundred "stampedes," and almost as many humbugs, opens the spring, as usual, with an other excitement. As yet we have nothing more definite than that "rich diggings have been discovered on Snake river."

An attempt will be made this spring to resume operations in the Musselshell copper mines, suspended a year ago in consequence of Indian hostilities. It is claimed that in many lodes the percentage of silver will pay the entire expenses of smelting. There is no doubt that they are among the richest copper deposits ever discovered. Messrs. Ames, Whitson and Crittenden have gone over to make preliminary arrangements.

Parties just up from the Sun river report war parties of Blackfeet moving around in a very threatening manner. They chased a freighter, not long ago, between the crossing of the Sun and Fort Benton, who made a narrow escape with his scalp; ten shots were fired at him. One of these marauding bands was gravitating this way, intending, it was thought, to make a raid on the stock of the Dearborn or Little Prickly Pear.

Were "Gold Tom" to return to his old diggings, Deer Lodge county, his astonishment would be as great as was Daniel Boone's on his last visit to Kentucky. Nearly nine years ago he was working there, cotton-wood logs hewed out for sluice-boxes, the first and only miner in what is now Montana. To-day, new and rich placers have been discovered on various parts of the creek, sluice strings can be counted by the score, while near a thriving hamlet resounds with the din of industry, and the valleys around are filled with well-improved farms.

We learn from Judge Clancy, who has just returned from a three days' hunting excursion, that the farmers of the Prickly Pear and Missoula valleys were not idle during the past winter. He says he frequently saw lines of new fences two and three miles long—substantial structures made with a view to permanency as well as strength—and many new dwellings, barns, stables, etc., have been erected, the general aspect being that of an old-established Eastern farming district. Preparations are in progress for putting in the spring crops, which, we are assured, will cover double the area of any previous year.

The Crow creek placers will be the scene of much activity the coming summer. Springville, the chief trading town, between 35 and 40 miles southeast of Helena, is one of the most lively villages of the Territory. It is destined to become a populous and wealthy city, the commercial center not only of the extensive gold placers in that direction—which will scarcely be exhausted in a generation—but also of the prosperous and progressing agricultural settlements of Crow and Willow creeks, two of the most fertile and beautiful valleys of the Rocky Mountains. The quartz lodes there are also receiving considerable attention.

The new Bannock ditch, of great capacity, and covering all the old diggings and others which have not been worked, will be completed by the middle of April. Then will have begun Bannack's substantial prosperity. Scarcely touched yet has been the wealth of her wide-extended placers. Nearly all the ground being worked at the time Alder was discovered was hurried through the sluices in a very unmannerly manner, the aim seeming to be not to get all the precious metal, but the most of it. It is probable the half was not taken out. The bulk of the old ground, therefore, will be re-worked, and a large extent of new developed, known to be rich. All are confident as much gold will be produced in that camp this year as the combined yields of 1863 and 1864. Bannack will be more than herself again.

Washington Territory Politics.

[From the Port Townsend Message.]

The vaunted fealty of certain journals in this Territory to the Republican party, when brought to the scratch, proves to be nothing but gas and of poor quality besides. So long as the office-holders—Uncle Sam's pap suckers—had undisturbed possession of the public teat, so long were their creatures loyal to the party. But the carpet bag principle that governs them will not allow party interest to go beyond itself. Rule or ruin is their watchword. They stick to this motto with a zeal worthy of a better cause.

A majority of the office holders in this Territory look upon the Government patronage that comes within the reach of their disposal as a means of retaining their official positions, or of obtaining new ones more lucrative. Nowhere does this lamentable condition of affairs show itself more plainly than at the Territorial capital. The *Transcript* and *Tribune*, notwithstanding what they may say to the contrary, are both under the control of Federal officials, and have, for the last year and a half, been incessantly parading their principles of loyalty, asserting their attachment to the party which they pretend to represent, and at the same time creating an ulcer at its very vitals, that it may become as putrescent as their vampyre directors, and rather than death, accept innoculation, and let a few unprincipled men luxuriate in the spoils of their disgraced party.

Rule or ruin? The *Transcript* sticks boldly and unblushingly to its principle—openly refusing to pledge its support to the nominee of the Claquato Convention, and, if rumor be [illegible], has even gone so far as to offer, in the event of said nominee being unacceptable, to affiliate with the Democrats. This is not a "Garfielde [illegible]," either.

Rule or ruin! The *Tribune* harbors the same unenviable principle; but its back is weak, its policy strong. A cunning and more wary pilot minds its helm. It does not say that it will not support other than Flanders, our present carpet bag delegate; but of Mr. Garfielde, whom it concludes will be the Republican nominee, it says that it has opposed, and whiningly adds, "as the representative and standard-bearer of the Republican party, we could not do otherwise than give him our support." Generous, indeed! After making every effort to cut a man's throat, and having failed, (though not hopeless of still [illegible]ing his purpose) to announce one's self ready to swallow his spleen, and pour forth milk and honey. It is a question in our mind whether the *Tribune* says this to conciliate Garfielde, or to weaken his chances in the Convention. It may be both.

There is one thing about this affair that is worthy of note. So far as we are able to find out, this squabble for the nomination is between the office holders and the people. The former, who have no interest in the Territory, are debasing the Government patronage into a means for [illegible] influence among the masses for Flanders. They do not hesitate to pack the primaries, and have even gone so far as to bring printed tickets, prepared weeks before, into our county. Greenbacks, not out of their own pockets, but from the public crib, are the levers by which they attempt to surmount the people's will; but [illegible]ness on the part of the people will stop their course. Already has the body of their vile principle become so putrid as to float to the surface, and the tide of public opinion will hurry the corruption through the channel of defeat to where its stench will be unobserved and the ill [illegible] of its presence unfelt.

U. S. BRANCH MINT—CONTRACTS AWARDED.—On Monday, the 29th inst., says the *Mountaineer*, the Superintendent, with D. M. French, Disbursing Agent, and Samuel L. Brooks, Department [illegible], opened the sealed proposals according to notice for material published last week. Contracts were awarded to the following persons, they being the lowest bidders: A. J. Phelps, hauling dimension granite [illegible]; J. P. Phillips, quarry per perch three dollars; A. J. Phelps, hauling wall granite from same quarry two dollars and ninety cents a perch; Bulger & Gibbons, [illegible] stone quarried and delivered, full cost $2 50 a perch; Bulger & Gibbons, wall sand stone quarried and delivered full cost two dollars and twenty three cents per perch; Bulger & Gibbons sand delivered four cents per bushel; Abrams & Newell, brick delivered per thousand eleven dollars; Abrams & Bonny, fire brick delivered per thousand feet twenty dollars; Abrams & Bonny, pine lumber delivered per thousand feet twenty-five dollars; J. M. French, hydraulic cement delivered, eight dollars and sixty two cents per barrel; J. M. French, Santa Cruz lime delivered, five dollars and sixty two cents per barrel. The contract for quarrying granite was not awarded for the reason that the bids were [illegible] too high. The Superintendent has employed men by the day, Captain J. S. McFarland as foreman, and sent them to the quarry, and will have the stone cut by day's work, believing he can do it cheaper and to a better advantage for the work. The foundation of the building walls have been put down with basaltic rock as high as required to be leveled up with the concrete, and over one hundred perch of rock laid since the commencement on the 23d instant in the best of cement mortar [illegible] the best of workmanship.

BRIEF MENTION.—Mr. E. L. Applegate, Surveyor General, has been in this city a day or two. He is going to Eastern Oregon on official business. The Willamette river has fallen about two feet within the last day or two. —The steamer *Senator* brought down yesterday [illegible] boxes apples. The steamer *Continental* brought up on her late trip, six hundred and seventy tons freight..... Several gangs of Chinamen were yesterday employed in cleaning the streets. The *Cascade* [illegible] morning took about seventy five head of young cattle for Eastern Oregon. ... The Street Commissioner has [illegible] the Chinamen for sawing and splitting wood on the sidewalks. Two offenders were before the Recorder yesterday, but were let off with a reprimand and some good advice. The Commissioner should also get after a few white men for committing similar offenses. [illegible] mentions a rumor that Ben Holladay is investing in real estate at East Portland. Probably [illegible] and nothing more. The *Mountaineer* says that J. K. Kelly is about to remove from the Dalles to Portland. He has formed a law partnership here. [illegible] degree of attention is being bestowed this [illegible] the matter of planting out shade trees. [illegible] of the streets now have continuous rows along the verges of sidewalks, & nearly [illegible] along the .....One or two of the dozen or so of April showers which visited this city yesterday were accompanied by small hail—too fine, however, to do any [illegible]. We have noted an increased activity during [illegible] in business in foundries and machine shops..... [illegible] cough, which has prevailed here for some time [illegible].

[illegible] COURT—Friday Morning.—Ex parte [illegible] et. al.—Petition for Habeas Corpus.—[illegible] arose as follows: Four seamen of the [illegible] were committed to jail by Recorder Risley to [illegible] the departure of the vessel for San Francisco. The [illegible] was made upon the complaint of the master [illegible] had signed articles for the voyage from San [illegible] to Portland and back, and that in violation of [illegible] they had deserted the ship at this port and [illegible] to make the remainder of the voyage. On Wednesday [illegible] for the seamen applied to Judge Deady [illegible] to discharge them from imprisonment, on the ground that the act of Congress (Sec [illegible]) conferring authority on Justices of [illegible] to commit seamen for desertion was [illegible] and void, because it conferred judicial power on State courts. The Judge required notice of the [illegible] to be given to the master or his counsel and set [illegible] hearing yesterday morning, at that time [illegible] was argued by Whalley for petitioners and [illegible] the master. The Judge took the matter under [illegible] until this morning, when it will be decided. [illegible] it being suspected that the master was [illegible] with the seamen before the application could [illegible], Judge Deady issued a warrant to the Marshal [illegible] into his custody until the application for [illegible] shall be passed upon.

[illegible]—The following items are from the [illegible]: [illegible] a large number of teams have [illegible] interior during the past week. They are [illegible] City, Idaho City, Boise City and several [illegible] fine silver mines of Nevada.....The [illegible], we understand, will again commence running [illegible] eight or ten days. The directors have secured the services of Mr. Dawson, formerly of the Oregon City Woolen Mill, to take charge of the carding department..... On Tuesday [illegible] a row took place between a number of [illegible] in the house opposite Louis Davenport's livery [illegible] resulted in the cutting of two men, but not seriously. They were arrested and [illegible] A. C. [illegible] Fell and all fined for disturbing [illegible].....The weather for the past week has been [illegible]. The roads [illegible] interior are in [illegible]. The grass [illegible] well and cattle improving. We have heard no complaint [illegible] the [illegible] on account of the scarcity of rain. [illegible] to be doing well.....The White Pine [illegible] made very little or no effect upon the people [illegible]. The future of the Dalles begins to look too [illegible] even given up for the chances for that fabulous country.

[illegible] COOL.—The prevailing cool weather elicits [illegible] from persons who find it a little un[illegible] without once reflecting what may be the [illegible]. [illegible] could be better just now than two or [illegible] of quite cool weather—cool enough, without [illegible] to keep the fruit buds from opening. The [illegible] of March started them prematurely and [illegible] continued into this month, the blooms [illegible] so as to expose the entire fruit [illegible] to damage by the spring frosts. As it is [illegible] held back till the hard frosts are all past [illegible] we shall have our usual bountiful crops insured.

CLOSING OF THE PUBLIC SCHOOLS.—The public schools [illegible] this city closed their winter term yesterday. A person asked [illegible] the philosopher if women ever fell in love. His answer was: "If [illegible] men do not fall in love [illegible] women must be very unfortunate." [illegible] centuries have given us nothing that could add to the wit or wisdom of the remark.

WALTHAM WATCHES.

T[illegible] extensive [illegible] of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

More than 400,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks than they [illegible]. There are other manufactories of any kind in the United States [illegible].

These timepieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring timekeeping.

Among the many improvements we would particularize

The invention and use of a centre pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust proof caps protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary to other watches.

Our new patent stem winder or keyless watch, is already a decided success and a great improvement on any stem winding watch in the American market, and by far the cheapest watch of its quality now offered to the public.

To CALIFORNIANS and others living in portions of the United States, where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch bearing the trade mark of Waltham is guaranteed to be a thoroughly reliable timekeeper.

To prevent imposition, buyers should invariably demand a certificate of genuineness.

The trade supplied by Messrs. R. B. GRAY & CO., San Francisco, Cal., and generally for sale at retail by all respectable dealers.

HOAGLAND'S

NEW PATENT SHAFT COUPLING!

W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,

Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling invented by H. R. Hoagland, we feel pleasure in informing the public that it is, in our opinion, the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens with a bolt and screw, and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs the rider. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style for any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use.
